PARENTS+PLUS is a **Tonbridge
based parenting support service**

and project of Fegans Child and
Family Care. We offer practical and
emotional support, guidance and
friendship for parents whatever the
age, needs, background or
circumstances of their children.

With local partners we aim to meet
a growing need for family support
by encouraging positive parenting.

Our volunteers receive excellent
training and support and we hold
regular preparation courses.
Participants are equipped to deliver
our much needed service, learning
vital new skills while making a
valuable and significant impact on
family and community life.

Will you change lives for good?
